NATIONAL DISASTER RESPONSE PLAN
OUTLINE OF PRESENTATION

- REFERENCES
- ASSUMPTIONS USED
- CONCEPT OF NATIONAL DISASTER RESPONSE SYSTEM
- RESPONSE CLUSTERS
  - Organizational Structure
  - Objectives
  - Membership
  - Operations Protocol
- NDRP: Preparations for 7.2 Magnitude Earthquake
- POLICY RECOMMENDATIONS
REFERENCES:

- RA 10121 and NDRRMP
- Memorandum Order No. 23, s.2014 dated 20 Oct 2014, NDRP for Hydro-Meteorological
- Based on actual experiences and observations of national agencies involved in the response operations done for earthquake and tsunami disasters from 2010-2013.
ASSUMPTIONS USED:

• Government agencies and instrumentalities have their own respective Disaster Preparedness Plans and Contingency Plans;
• Local Government Units (LGUs) prepared and implemented their Local DRRM Plans particularly preparedness activities that are directly connected to response;
• Cluster Approach to response has been cascaded to all levels of government both national and local; and
• MMEIRS Study on the extent of damages and casualties.

NDRP in Perspective
The National DRRM Plan

Disaster Preparedness
Establish and strengthen capacities of communities to anticipate, cope and recover from the negative impacts of emergency occurrences and disasters

Disaster Response
Provide life preservation and meet the basic subsistence needs of affected population based on acceptable standards during or immediately after a disaster

Disaster Prevention and Mitigation
Avoid hazards and mitigate their potential impacts by reducing vulnerabilities and exposure and enhancing capacities of communities

Disaster Rehabilitation and Recovery
Restore and improve facilities, livelihood and living conditions and organizational capacities of affected communities, and reduced disaster risks in accordance with the “building back better” principle

Safer, adaptive and disaster resilient Filipino communities towards sustainable development
Who are engaged in disaster response?
Who are engaged in disaster response?

NATIONAL DISASTER RESPONSE PLAN (NDRP)
CONCEPT OF NATIONAL DISASTER RESPONSE SYSTEM

During-Disaster
- PHIVOLCS Announcement
- NDRRMC Advisory
- Reports or NO reports of Incident/Disaster
- Request from LGUs

Post-Disaster
- RDANA
- Search and Rescue
- Early Recovery
- Mobility Resources

OPERATION PROTOCOL
1. Rationale
2. Objective
3. Concept Operations
4. Operations Flow (from LGU to NGAs)
5. Lead Cluster Agencies
6. Cluster Member Agencies
7. Roles and Responsibilities

Coordination, Collaboration, Communication and Cooperation

International Humanitarian Community
OBJECTIVES OF RESPONSE CLUSTER

Vice-Chairperson for Response (DSWD)

Operational Coordinator (OCD)

PROTECTION (DSWD)

To save lives by providing food and non-food to affected populations during the emergency response phase in the short-term, and to restore at least the pre-disaster level of food security in the affected areas in the long-term.

To ensure safety of learners and DepEd personnel and to provide continued access to quality education to all affected learner.

To provide assistance and augment all requirements for the management and evacuation of families affected by disasters.

To provide an efficient logistics coordinating structure that will harmonize the activities of all clusters and encourage regular information sharing among all stakeholders and other partners which covers the following:

- transportation (emergency road network, land, sea and air),
- warehousing,
- inventories
- tracking of deployed items

To provide assistance in the proper identification and disposition of the remains in a sanitary manner with cautions to prevent negative psychological and social impact on the bereaved and the community.

To ensure effective and predictable health response built on health priorities and related best practices.

To provide support for an effective, timely, organized and systematic search, rescue and retrieval in all emergencies to further minimize loss of lives and casualties.

To ensure effective and predictable health response built on health priorities and related best practices and to provide support for an effective, timely, organized and systematic search, rescue and retrieval in all emergencies to further minimize loss of lives and casualties.

To provide support for an effective, timely, organized and systematic search, rescue and retrieval in all emergencies to further minimize loss of lives and casualties.

To ensure effective and predictable health response built on health priorities and related best practices.
NDRRMC have recommended for the following actions:

- **Response Cluster activation**
- **Declaration of National State of Calamity**
- **Call for International Assistance.**

**FOCAL PERSON OR RAPID DEPLOYMENT TEAM (RDT) ACTION:**
- Response Cluster Focal Person or RDT coordinates with the affected LGUs for appropriate deployment and submits status to Head of Response Cluster and affected DRRMC.

**Emergency Operations Center (EOC) at LGU**

**Selected Incident Command Posts at LGU**

**ACTION:**
- With Report AUGMENTATION: Affected LGUs are with capacity but needing augmentation.

**ACTION:**
- Without Report ASSUMPTION: EOC INSTALLED by the Rapid Response Team will function with members of the National Response Cluster with or without LCEs of the affected LGUs.

**WARNING AGENCIES**
- PHIVOLCS
- PAGASA
- MGB

**LEGEND:**
- Direction of action
- Information

**ACTION:**
- NDRRMC have recommended the following actions:
  - Response Cluster activation
  - Declaration of National State of Calamity
  - Call for International Assistance.

**ACTION:**
- Response Clusters:
  - Through the Law & Order Cluster mobilized resources on ground in response and to provide Tsunami warning if necessary.
  - Acted on REPORTS or NO REPORTS status from the affected LGUs through the focal persons (Region, Province, City/Municipal).
  - Deployed RDT at the affected areas to conduct RDANA.
### TIMELINES OF EMERGENCY TOOLS AND SERVICES

SUBIC FREEPORT
Zambales
Policy Recommendations in relation to the NDRP:

Operational Requirements:

1. Identification of specific sites for evacuation centers or “Relief Shelters” including those that are privately owned;

2. Mandate all LGUs to construct “safe ICS Facilities, Evacuation Centers / Multi-Purpose Centers”;

3. Integration of Cluster operations and IMS (Information and Management System) to facilitate the efficient and effective implementation as well as monitoring of all movements of the cluster and their instrumentalities;
Policy Recommendations in relation to the NDRP:

4. All national and local government agencies/units to upgrade or add/purchase equipment, transportation fleet, supplies for their pre-positioning of resources and establishment of warehouse facilities nationwide;

5. Provision of a Operations Hub strategically located in Luzon, Visayas and Mindanao (assets, equipment, manpower) that will facilitate the mobilization of the Clusters.
Policy Recommendations in relation to the NDRP:

6. Replication of the National Rapid Emergency Telecommunications Team (RETT) for all member agencies of the ETC and their field offices;

7. Upgrading and connectivity of existing communications system of the member agencies and LGUs EOC to facilitate the operations and monitoring functions during disaster;

8. Allocation of HF/VHF/UHF radio of LGUs EOCs and specific radio frequencies and satellite band for disaster response operations;

9. Conduct of SIMEX and Table-Top Exercises to attain interoperability of all Clusters; and
Operational Requirements:

10. Upgrading and connectivity of existing communications system of the member agencies to facilitate the operations and monitoring functions during disaster:

- Need for all levels of government to enhance and/or set up their respective ICT through procurement, training, and orientation; and
- Request for technical assistance from CEIS experts in the setting-up of ICT network for each agency members
